Fertilizer Research

CONTENTS Vol. 43, Nos. 1-3, 1995

Special Issue: **Selected papers from the International Symposium 'Fertilizers and the Environment', held in Salamanca, Spain, 26–29 September 1994**
Scientific editor: **C. Rodriguez-Barrueco**

Higher and better yields with less environmental pollution in Egypt through balanced fertilizer use 1–4
M.M. El-Fouly, A.F.A. Fawzi

Fertigation for minimizing environmental pollution by fertilizers 5–7
J. Hagin, A. Lowengart

The agronomical and physiological efficiency of nitrogen applied for arable crops in Poland 9–12
E. Fotyma, M. Fotyma

Nitrogen balances in long-term field experiments 13–19
T. Németh

Principles of forest fertilisation – illustrated by New Zealand experience 21–29
I.R. Hunter, W. Smith

Nutrient cycling and sustainability 31–35
I. Láng

Effect of different rates of N-fertilizers on nodulation, nodule activities and growth of two field grown cvs. of soybean 37–41
A.M. Abdel Wahab, M.H. Abd-Alla

Impact of vesicular arbuscular mycorrhizal fungi and *Rhizobium* on the growth and P, N and Fe uptake by faba-bean 43–48
I.A. El-Ghandour, M.A.O. El-Sharawy, E.M. Abdel-Moniem

Effect of time and rate of nitrogen application on cotton 49–53
H.B. Setatou, A.D. Simonis

Heavy metal contaminants in inorganic and organic fertilizers 55–61
J.J. Mortvedt

The role of inorganic fertilizers and their management practices 63–81
C. Hera

Suitability of North Carolina natural phosphate to Polish agriculture 83–86
M. Fotyma, L. Hammond, K. Kesik

Improvement of leguminous vegetables production in calcareous soil by addition of some acidifying materials 87–91
N.N. Michail, F.S. Faris, M.W.A. Hassan, R.G. Kerlous

Nitrogen fertilization management in orchards to reconcile productivity and environmental aspects 93–102
M. Tagliavini, D. Scudellazi, B. Marangoni, M. Toselli

Natural radioactivity in phosphate fertilizers 103–107
L.C. Scholten, C.W.M. Timmermans

Coordinated phosphorus research within a network of six European institutions 109–115
M. Vanoverstraeten, G. Hanotiaux

Plant nutrient sulphur – a review of nutrient balance, environmental impact and fertilizers 117–125
S.P. Ceccotti

Optimisation of nitrogen fertilisation 127–130
M. Carvalho, G. Basch

Plant biomass and fruit yield induction by Ti(IV) in P-stressed pepper crops 131–136
J.L. Lopez-Moreno, J.L. Giménez, A. Moreno, J.L. Fuentes, C.F. Alcaraz

Improvement of the N fertilizer efficiency with dicyandiamide (dcd) in citrus trees 137–142
M.D. Serna, F. Legaz, E. Primo-Millo

Effect of method of N-application and modified urea on N-15 recovery by rice 143–148
S.M. Soliman, M.A.S. Abdel Monem

Soil effects due to sewage sludge application in agriculture 149–156
H. Häni, A. Siegenthaler, T. Candinas

Sub-surface injection of liquid waste 157–163
P.M.P. Águas, R. Godwin

Reducing N losses (NH_3, N_2O, N_2) and immobilization from slurry through optimized application techniques 165–171
P. Dosch, R. Gutser

Agricultural use of sewage sludge and its regulation 173–177
P. Soler-Rovira, J. Soler-Soler, J. Soler-Rovira, A. Polo

Cotton fertilization with composts of (sugarbeet) vinasse and agricultural residues 179–182
E. Madejon, M.J. Diaz, R. Lopez, C. Lozano, F. Cabrera

Effect of agricultural practices on the nitrogen losses to the environment 183–189
C. Ramos

Control of nitrate pollution by application of controlled release fertilizer (CRF), compost and an optimized irrigation system 191–195
J.A. Diez, R. Caballero, A. Bustos, R. Roman, M.C. Cartagena, A. Vallejo

Nitrogen losses by denitrification and leaching in grassland 197–201
J.M. Estavillo, M. Rodriguez, C. Gonzalez-Murua

Considerations on main factors which take part in nitrate contamination of ground water in Spain with relationship to other EU countries 203–207
S. Ruano Criado

Phosphate enrichment in the sandy loam soils of West-Flanders, Belgium 209–215
J. De Smet, G. Hofman, J. Vanderdeelen, M. Van Meirvenne, L. Baert

Aluminium phyotoxicity 217–223
J. Barceló, Ch. Poschenrieder, M.D. Vázquez, B. Gunsé

Towards zero accumulation of heavy metals in soils 225–233
E. Witter

Putting the concept of environmentally balanced fertilizer recommendations into practice on the farm 235–240
I. Steen

Code of best agricultural practices 241
J.C. Ignazi

Author Index 243

Instructions to authors 245–246
